 - a. H1 – may position dog halfway from the handler's post to the stock, handler may approach within 15 ft of stock.
 - b. H2 – dog is positioned at the handler's post, handler may move half way between post and stock.
 - c. H3 – dog is positioned at the handler's post and handler must remain at the post until the stock are brought to the post.
2. (10 pts) Gate Sort: The handler sorts 25 head from the flock into the PT exhaust pen through the north gate. (*H3 – must be sure to include a minimum of one head wearing a ribbon).
3. (10 pts) Gates/alleyway/pen: Obstacle 1 – Difficult passages
Handler and dog take remaining sheep or goats through the brown side gate into the handling system pen, traverse the pen to the south gate and exit.
4. (10 pts) Wide Graze: Stock is moved along the narrow road to the entrance to the graze. Once the handler and stock reach the entrance on the west side of the graze, the stock is allowed to enter the graze and settle. The dog is expected to keep the stock within the graze area for the duration of the graze (5 minutes)
5. (10 pts) (* H3 only special task): During the wide graze – the handler will enter the graze and pull a ribbon from a designated animal.
6. (10 pts) Gather 2:

 - b. H3 – The handler may go no further than the edges of the bridge and must remain there until the dog pushes the stock through the bridge, whereupon the handler may move.
8. (5 pts) Traffic Stop: The handler positions the dog to affect a stop and hold prior to the stock entering the traffic road allowing the handler to check for traffic. Once the handler determines the road is safe, the handler leads the flock onto the traffic road
9. (5 pts) Passage of the Car: Obstacle 3 - With the dog working between the stationary car and the flock, preventing the flock from interfering with the car or being endangered by the car. The flock should continue to move during the passage.

10. (10 pts) Road work: The stock is to stay on the road and move in a calm organized manner throughout the course.
11. (10 pts) Gate work/Difficult passages: Obstacle 4: The handler and dog then return to the handling system pen entering from the east gate, then back into the PT exhaust pen and exhausts them into the PT with the balance of the flock.
