HRD - STOCKTOBERFEST 2025  
Magic's Legacy, Genoa City WI  
2 Trials - October 19, 2025

10 sheep are placed loose in back field; no specific placement. Where the sheep are when the dog and handler go through the gate between the North Arena and the Back Field will determine the handler's first move.

If the sheep are somewhere out in the pasture, the handler will go to the first handler's post, send the dog and bring the sheep to the handler to begin the course. If the sheep are at the gate between the Back Field and the North Arena, that is where the sheep are gathered from.

1. Gather the sheep from wherever they are in the Back Field and take them back to the handler's post (cone #1). Level 3 handlers stay at the post, level 2 handlers may stand half way to the sheep, providing sheep are at least 75 feet away. Level 1 handlers may go to within 20 feet of the sheep
2. Take sheep in a straight line from the handlers post to obstacle #1, large free standing pen. Level 3 handlers must drive from the post; handler may leave post when sheep reach Cone #2 until handler gets in position to have the dog pen the sheep. Handler may leave the post when sheep reach Cone #2. Level 2 handler may walk behind their dog on the drive, and leave their sheep at Cone #2 while. They position themselves to pen the sheep. Level 1 handlers may wear the sheep to Cone #2, leave their sheep at Cone #2 with the dog until they are in position to pen their sheep. In all cases, at least 8 sheep must be penned before going on. Points deducted for sheep circling pen and for sheep left outside of the pen.
3. Dog and/or handler must take sheep out of the pen and take them to obstacle #2. Sheep must go around the right side of first panel, and in between the the second two panels. Level 3 handlers must stay at pen and drive through obstacle 2. Level 2 handlers may wear/dive to cone #3. At cone #3 the handler must stop and push the sheep the correct way through the p panel. Level 1 handlers may walk through the obstacle. Points deducted for sheep missing panels or going the wrong directions through panels.
4. Sheep must exit obstacle 2 left (South) and follow the "road" between the cones back to Cone #1. Level 3 handlers must remain at free standing pen until all sheep are at cone #1. Dog must hold sheep at Cone #1 until handler joins them and takes the sheep back through the gates into the North Arena. Level 2 handlers may walk around the outside of the cones on the "road" until all sheep are at cone #1. Level 1 handlers may wear the sheep down the road to Cone #1 and then on to letting sheep back into the North Arena.

5. Take sheep through North Arena through the gates into the Big Field, close gates behind sheep in both fields. Points deducted for sheep not going directly from Back Field gate through Big Field gate.

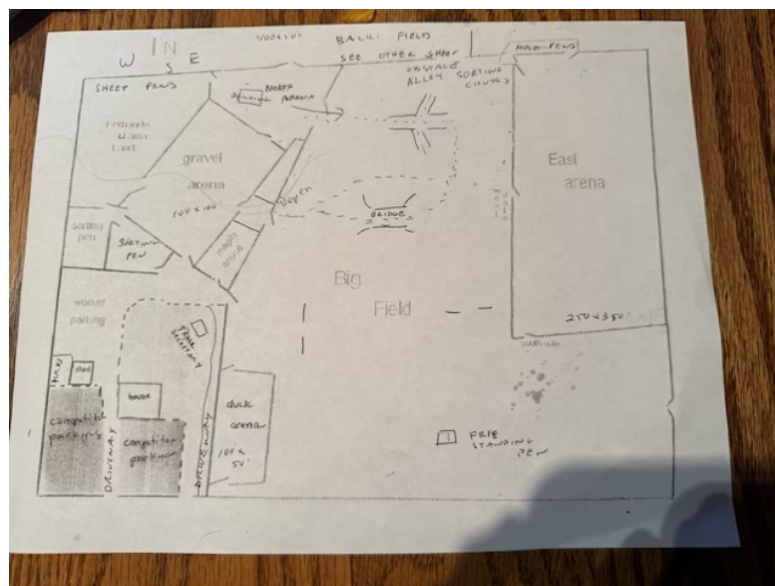

6. Handler and dog take sheep cross field to Alley Sorting Chute. All handlers put sheep into entry of alley sorting chute. Level 3 handler must let 5 sheep through each of the side and none through the end. Level 2 handlers must have at least 5 sheep out through either or both of the side chutes, and the rest an leave through the end. Level 1 should put sheep straight through the chute. For Level 1 points deducted for any sheep going out through side chute

7. Take all sheep over bridge and pen all sheep in Maple Arena. Sheep may not charge gate and through through quietly
